

August 12, 2020

For the past 50 years Westerly Marine has developed a reputation for building boats of the highest caliber, producing some of the world's finest racing and cruising yachts.

It has been a good run, but as of this notice we will no longer be accepting any new production orders. Over the course of the next several weeks we will complete existing projects, wind down operations, and liquidate assets.

As we move toward retirement, we will be shifting our business model and offering our services to the marine, composite, and private sectors for manufacturing consultation, estimating, materials supply and project management. Please contact us if you have a need for any of the services we offer.

We would like to express our thanks and gratitude to our customers, associates, employees, and the sailing community for their confidence and support throughout the years.

Sincerely,

Lynn Bowser
